Headteacher Round up:

Welcome back to what promises to be an exciting and purposeful year at Bentley New Village Primary School. We are delighted to have our entire school community return with renewed energy and enthusiasm.

This half term, the School Value we are focusing on is cooperation—a skill we believe is fundamental to both academic success and future wellbeing. Through deliberate teaching and consistent encouragement, our pupils will develop the collaborative abilities essential for navigating an increasingly interconnected world.

Alongside this, we are implementing a refined lesson structure across all classes: REMADE. This framework—Review, Explain, Model and Practice, Apply, Deepen, Evaluate—ensures consistency, clarity, and progression in every lesson, enabling our pupils to build knowledge systematically and with confidence.

We look forward to sharing this journey with you. *Mrs Simmons*

SAFEGUARDING UPDATE:

This week, as part staff training, we have been looking at the latest updates to **Keeping Children Safe in Education (KCSIE)** and, in particular, developing our understanding of contextual safeguarding. We have considered the wider factors that can affect children's safety and wellbeing beyond the school environment and reflected on our key safeguarding priorities within our local community. As part of this ongoing work, I have also reviewed and updated our Safeguarding and Low-Level Concerns Policies to ensure they reflect current guidance and our continued commitment to keeping all children safe. The updated policies will shortly be available to view on our school website.

SEND UPDATE:

This section will provide regular SEND updates, information and support for families.
